APPLICATIONS BUILT

SOCCER-STORE [LIVE](#) | [GitHub](#)

- A shopping cart full stack web application that allows a user to view products, view product details, place items in cart, view cart summary, and place an order
- Constructed frontend with **JavaScript** and **React.js** to dynamically render elements onto the web page
- Created backend with **Node.js**, allowing the client to communicate with the **PostgreSQL** database

DOG-GURU - [LIVE](#) | [GitHub](#)

- A web app that allows users to generate dog images with advice, generate fox images with a joke, refresh the application for new advice or joke content, and user can bookmark their favorite items to view at a later time
- Designed the **HTML5** webpage using **Bootstrap 4** and **CSS3** to make it **responsive** on mobile and desktop
- Developed using **JavaScript**, **jQuery** and **JSON** to get data from APIs to display the returned information onto the app

WHACK-A-DIGLETT - [LIVE](#) | [GitHub](#)

- A frontend whack-a-mole application inspired by Pokemon that allows a user to select a character, whack a diglett, and view the score
- Written mainly with **React.js** and **JavaScript** to get the digletts to dynamically render in different hole locations based on a `setInterval`
- Positioned elements on the web page with **CSS3** to get digletts to pop up in the correct spot

PROFESSIONAL EXPERIENCE

J. Stephens

Assistant Ecommerce Manager

2019 - 2020 Valencia, CA

- Administered and supervised web merchandising team of 6 people to accomplish company target
- Oversaw offered products/merchandise to ensure sales were maximized and delivered orders were error-free
- Worked directly with internal resources regarding the day to day management of the website
- Uploaded/updated listings and inventory to the ecommerce website to keep current with other shoe retailers
- Trained new employees to properly keep up with the workflow and follow company policy

Administrator of Online Sales

2018 - 2019 Valencia, CA

- Liaised with suppliers to route inventory and ensure listings were accurate and up to date
